Title
  Image processing with color **scanner.**
Source
  Journal of the Institute of Image Electronics Engineers of Japan, {J-Inst-Image-Electron-Eng-Jpn-Japan}, June 1993, vol. 22, no. 3, p. 224-32, 10 refs, ISSN: 0285-9831, Japan.
Author(s)
  Sakamoto-T.
Author affiliation
  Sakamoto, T., Dainippon Screen Manuf. Co. Ltd., Japan.
Abstract
  Recent innovation in printing and plate making has been due to development of electronic devices and systems; particularly the color **scanner** has become indispensable in the process of multi-color plate making. Recent computer technology development will contribute to realization of the system aiming at the process of filmless editing. The author describes multi-color plate-making technology using the color **scanner,** and the image processing system in plate making for editing, and hi-fidelity printing.
